

# 11th May 2026 12:30–2:30pm Derby Museum of Making How do we help children thrive when their life story has been complicated?

Join us in person for an interactive event to share best practice over coffee and cake, celebrating work that supports children to feel good in themselves, their families and their communities.

We are **Growing Me**, creators of an evidence based, multi-sensory toolkit that helps a child and their trusted grown-up explore the themes of Therapeutic Life Story Work through fun animations, games and creative making.

This event connects people across social care, health and education with an opportunity to learn and celebrate best practice together.
